

I'm very grateful to have been a student with your assistance, I never lacked anything to help me do my best at varsity. My mother was able to breathe easier because of your help, especially through the pandemic. It was a great relief for her to not have to worry about my education.

Even though the past years were not without struggle, having 18twenty8 by my side was one of the main reasons I was able to make it through. Thank you so much. I have had a great experience with 18twenty8!
