Dear Ms Seseane

LETTER OF APPRECIATION

I would like to take this opportunity, on behalf of the Techno Girl programme strategic partners, namely the Ministry in the Presidency Responsible for Women, the Department of Basic Education, UNICEF, the State Information Technology Agency (SITA) and Uweso Consulting to express our sincerest appreciation for your organisation's attendance and support of the Techno Girl business breakfast on 30 August 2016. Together with our partners in the public and private sectors we are striving to create a brighter future for the girl child.

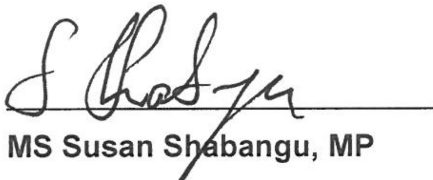

Techno Girl has become one of the flagship programmes that combines the skills and assets of government, international development organisations and business, to create opportunities for meaningful participation of organisations in the economy across all sectors to create sustainable opportunities for young girls thus building stronger families, communities and society. It is this economic imperative that drives the founding partners of the Techno Girl programme to continuously seek new opportunities and partnerships to ensure ongoing growth of the programme.

I am exceptionally proud of our existing job shadowing host organisations, who are at the heart of this intervention, for their continued contribution to the success of this programme. If your organisation is not currently involved, we look forward to finalising a mutually beneficial partnership with you shortly.

I have mandated the Techno Girl programme team, led by Uwes Consulting, to engage with prospective partners to introduce the programme in more detail and request your organisation to engage with them to gain further insight into the programme.

I am looking forward to a strong collaboration with your organisation to expand the footprint of the Techno Girl programme. Let us continue to work together towards the empowerment of our girl children and move women's agenda forward.

Thanking you

A handwritten signature in black ink, appearing to read 'S Shabangu', written over a horizontal line.

MS Susan Shabangu, MP

Minister
