

Experience letter

Name and Surname: Mahlatsi Mashapu

Degree: Bachelor of Accounting Sciences

My experience as a 18twenty8 beneficiary has been overwhelmingly the most beautiful one. Being funded by 18twenty8 made my journey so much easier as a student that is studying quite a complex course. As a beneficiary I only had one task, which is to ensure that I complete my degree without worrying about how my fees are going to be cleared for the year. The funder also made sure I was sufficiently funded monthly to be able to buy groceries.

18twenty8 is more than a financial funder, this is because it had taken initiative in more ways than one to ensure and to prove that my mental is also a priority by constantly being in contact with me. 18twenty8 has a programme that allows their beneficiaries to obtain appropriate counselling where considered necessary. I will forever be grateful for the opportunity of being selected as a beneficiary of this funder.
