

To whom it may concern

I was welcomed into the 18twenty8 Team with open arms in 2020, it was a year of many struggles and they helped my family and I through a difficult time.

The 18twenty8 Team was full love of acceptance, love and helping hands. They were there whenever I needed anything and presented a community that I am beyond grateful for. It was about more than just the money for the 18twenty8 Team and that stood out to me.

I would like to say a big thank you once again to the 18twenty8 Team for helping me complete my studies and allowing me to be closer to achieving my dream of becoming a CA(SA).

Kind Regards
Simone Faulmann
