

It only takes one moment to change your life forever. For me it was the moment 18twenty8 awarded me a full bursary to fund my PGDA in UKZN. Most of us know the trials and tribulations one faces when tasked with successfully completing your PGDA, it takes immense perseverance, tenacity and hard work. With the help of 18twenty8 I am so grateful to have passed my PGDA in 2024 and obtain my CTA (Certificate of Theory in Accounting). This brings me one step closer to achieving my life's goal of becoming a Chartered Accountant.

In addition to the financial aid I was provided, I was lucky enough to have received significant emotional support throughout this difficult year. A course with this level of difficulty definitely puts a strain on your mental health and having a shoulder to lean on, provided comfort when I needed it the most. The resources I was given was pivotal in my success this year and allowed me to truly grasp a deeper understanding of the content taught.

Being a part of 18twenty8 has allowed me to connect with other brilliant woman in my field and otherwise. It was a wholesome experience being able to converse with these ladies and learning from their ever-growing wealth of knowledge.

I would like to sincerely express my gratitude to 18twenty8 for allowing me the opportunity to prove myself and achieve my goals.
